BACKGROUND AND ASSIGNMENT
<p><u>1. ORGANISATIONAL CONTEXT</u></p> <p>The United Nations Human Settlements Programme (UN-Habitat) is the United Nations agency responsible for human settlements, mandated to promote socially and environmentally sustainable towns and cities, with the goal of providing adequate shelter for all; within the overall objective of the United Nations to reduce poverty and promote sustainable development. The details of the Habitat Agenda, Global Programmes and the Mandate are available in the global web site at www.unhabitat.org and the Sri Lankan web site at www.unhabitat.lk.</p> <p>UN-Habitat operations in Asia include activities in Afghanistan, Bangladesh, Indonesia, Iran, Myanmar, Nepal, Pakistan, Philippines and Sri Lanka, under supervision of the Regional Office for Asia and Pacific in Fukuoka Japan.</p> <p>Since its inception in 1978, UN-Habitat has been closely working with the Government of Sri Lanka and implemented projects and programmes under the themes of, (a) Environment and climate change; (b) Post-disaster recovery and reconstruction; (c) Land and housing; (e) Disaster Risk Management; (f) Urban planning and governance; (g) Pro-poor settlement upgrading; (h) Water and sanitation; (i) Community infrastructure; and (j) Social inclusion.</p> <p>The United Nations Human Settlements Programme (UN-Habitat), is the United Nations agency responsible for sustainable urbanization and safer human settlements that contributes to the overall objective of the United Nations to reduce poverty and promote sustainable development.</p> <p>In line with the agency’s 2014-2019 Strategic Plan, UN-Habitat continues to meet the demand from member states in Asia and the Pacific to provide technical advisory services in seven focus areas:</p> <ul style="list-style-type: none"> • Urban legislation, land, and governance, • Urban planning and design,

- Urban economy,
- Urban basic services,
- Housing and slum upgrading,
- Risk reduction and rehabilitation, and
- Research and capacity development.

2. THE PROJECT

UN-Habitat in Sri Lanka is focused on supporting governments in the formulation of policies and strategies to both create and strengthen a self-reliant management capacity at both national and local levels with the assessment of human settlement development constraints and opportunities, the identification and analysis of policy options, the mobilization of national resources and support for improving human settlements.

UN-Habitat believes that as cities grow it's vital that policy makers and city leaders have access to reliable and verifiable information in terms of urban indicators to support decision-making. While Colombo and the Western region has a reasonable amount of information, the other cities – both municipal and urban cities lack detailed and composite information of the demographic, economic, cultural, physical and environmental dynamics, and lack the resources to collect and update such information. The costs of this widespread information and capacity deficit are immense and accrue in the form of expanding informal settlements, land grabbing, decreasing agricultural land, deepening social problems, rising urban inequality, increased disaster situations and greater insecurity; as many planners and decision makers operate in a climate of limited understanding of the situation, resulting in allocating resources to immediate and pressing issues rather than investing in progressive change over the long term.

To work towards resolving this situation, UN-Habitat together with government, non-governmental and funding partner, is planning on the development and publishing of a *State of the Sri Lankan Cities 2017* Report together with the collection and collation of information, the development of composite maps and databases, and building capacity of the LA's to use this data, which will help mitigate the above scenario and enable better planning and encourage investment towards a better urban future for the country.

Through the proposed project, UN-Habitat hopes to improve information and its analysis of the provincial capitals as the first step in promoting informed and evidenced-based policy and integrated city planning, and private and public sector investment. This will be carried out in partnership with relevant governmental Ministries and institutions such as the Ministry of Megapolis and Western Development (MoMWD); Ministry of Provincial Councils and Local Government (MoPCLG); the Sri Lanka Institute of Local Governance (SLILG); etc. Other agencies working in this sector will also be engaged.

This report and information database would be an essential step towards this process, and could be positioned as the baseline report for the Sustainable Development Goals, primarily towards Goal 11 of building inclusive, safe and sustainable cities and human settlements.

Aspects to be covered in the report, which will translate to chapters in the publication are tentatively: Demography of Sri Lankan Cities; Urban Settlements; Economy of Sri Lankan Cities; Infrastructure and Transport; Environment and Aesthetic Quality; Urban Governance.

2. FUNCTIONS /KEY RESULTS EXPECTED

Under the overall supervision of the Coordinator of the State of Sri Lankan Cities project, UN-Habitat, the Digitizing Assistant will work at the office. H/She will support the GIS Assistant to digitize and prepare the spatial maps required by Chapter Writers of “The State of Sri Lankan Cities” for preparing latest land use map.

He/she will:

- Specially digitize urban areas.
- Utilize the tabulated data from field officers to develop geo-referenced spatial maps.
- Preparation of maps for the given layout as required.
- Follow the directives of the person coordinating and adhere to the instructions given from time to time.
- Digitization of all the land use categories assigned to him/her.
- Completed land use maps for the 9 cities as requested for the allotted chapters.
